AskProso | PAYROLL

Payroll that runs itself.
Run it yourself, or let us.

AI-first payroll for India, as software or fully managed. A deterministic engine calculates every rupee, AskProso AI chases, flags and explains, and a person approves every run.

01 · AI PROPOSES

Maps your data, flags anomalies, drafts reminders and explains payslips. Never calculates or decides.

02 · ENGINE CALCULATES

Versioned, effective-dated rules in exact paise, with a trace behind every figure.

03 · HUMANS APPROVE

Maker and checker, recent sign-in for money actions, and an audit trail of who changed what.

One platform, from joining to final settlement

- **Payroll & statutory** — PF, EPS, ESI, PT, LWF, TDS, Form 130 and 138, labour-code wage check, compliance calendar.
- **Attendance & leave** — Daily attendance, shifts, overtime rules and leave. Loss of pay reaches the run.
- **Salary & arrears** — Raises per person, balance to CTC, arrears shown month by month.
- **Finance & bank** — Journal for Tally and Zoho Books. Bank files for HDFC, ICICI or your layout.
- **Letters** — Offer, relieving, experience and salary letters with a public verification code.
- **Self-service** — Payslips, tax declarations, claims and punch-in on a phone. Managers approve in the same place.
- **AskProso assistant** — Ask in plain words. It prepares changes on a card and waits for Confirm.
- **Reports & what-if** — Register, liability and TDS reports. Try a raise on real data before saving.

NEW · SALARY CHANGES

A raise that fits the person, not just the percentage

- **The structure suggests, HR decides.** Set Basic, HRA or any fixed earning for one person.
- **Nothing is lost.** The Special Allowance balances to CTC and “still to place” shows what is left.
- **Arrears you can read.** Each paid month recalculated by component, on screen and on the payslip.

Per month	Now	Suggested	New
Basic	40,000	44,000	45,000
HRA	16,000	17,600	18,000
Special allowance	44,000	48,400	47,000
Monthly CTC	**1,00,000**	**1,10,000**	**1,10,000**

Illustrative: CTC ₹12,00,000 to ₹13,20,000. ₹3,000 a month is still to place.

Built for India

PF / EPS / VPF · ESI · Professional tax by state · LWF · TDS, Section 192 · Form 130 (16) · 138 (24Q) · Labour codes · Income-tax Act 2025 · Arrears with PF, ESI, PT · Final settlement & gratuity

Use it as software

Your team runs payroll from one screen. Import from a sheet, the API or your directory.

Or have it managed

A payroll specialist runs the month. You review one summary and approve.

Private by design

Hosted in India. PAN and bank details encrypted; none sent raw to an AI model.

Switch mid-year

Bring in earnings and tax from your old provider. Several legal entities supported.

Statutory figures and file layouts are versioned rules with source notes; those not yet confirmed by an adviser are marked in the product. Figures shown are illustrative.

Book a 15-minute walkthrough

We sign an NDA before reviewing any payroll data.
